TECNOSERRANDA

**CHIUSURE
METALLICHE PER L'EDILIZIA**

The great challenge of Tecnoserranda from the first day of its institution was the development and evolution of an innovative philosophy which would have anthropocentric and customer base.

Looking at today's leading position in this specific sector as well as the high esteem gained by its customers, one can easily realize that the challenge has been met.

Investing in a stable workforce, which works daily under excellent working conditions and generally within an environment where high respect dominates as well as the development and rewarding of work, has managed to establish the most appropriate production and distribution conditions of products.

At the same time however, has managed to build an ideal system of values with strong foundations, where responsibility and respect for the consumer dominates, placing the customer in the center of developments meeting the needs and requirements through an interactive relationship of trust and integrity.

DOUBLE PROFILE

For the construction of the residential rolling shutters, TECNOSERRANDA uses only high quality and durable materials. With a wide range of choices between small and big windows, ventilation and a wide range of colors you are able to create a completely customized product that fits perfectly with your building and its surroundings. TECNOSERRANDA mission is to provide you with all the advantages of safety, thermal insulation and soundproofing by creating a durable and elegant rolling shutter. The double sided profile filled with polyurethane is manufactured from either hot galvanized steel sheet or aluminum. Joining great quality and unmatched design TECNOSERRANDA has created a profile that is both durable and functional.

Certified Dimensions: Steel - W:10000xH:10000 Class 2 / W:7000xH:10000 Class 3
Aluminum - W:6000xH:6000 Class 3/ W:4000xH:4000 Class 2 High Speed
Sound Reduction: R~21dB
Thermal Transmittance: Up [W/(m²K)] 4,46

Windows

Double PLEXI GLASS (130x60mm) windows option, for natural lighting.

Ventilation Grills

Ventilation grills from double PLEXI GLASS (134x64mm) option, for natural ventilation.

Windows

PLEXI GLASS (150x60mm) windows on aluminum extrusion profile (40502) option, for natural lighting.

Windows

PLEXI GLASS (600x64mm) windows on aluminum extrusion profile (40502) option, when additional natural lighting is required.

RAL COLORS

You can choose from a wide range of powder coating colours with excellent resistance to outdoor conditions and excellent colour retention that meets the requirements of all major European architectural standards. Also, two wood imitation colors are available.

SINGLE STEEL SHEET PROFILE

Hot galvanized steel sheet profile, suitable for warehouse, garage or shop security. In your absence rolling shutters can effectively protect your property. If you are a shop owner you will find the perforated version of the profiles quite useful as it combines in-store vision, ventilation and maximum security.

You can choose from a wide range of powder coating colours with excellent resistance to outdoor conditions and excellent colour retention that meets the requirements of all major European architectural standards.

Choose between 25 RAL tints.

Windows can be placed on **FP97** profile that can be combined with any other of the profiles.

Profile Name	P115	P97	B95	B71	DB

NET ROLLING SHUTTERS

Specially shaped rods of galvanized solid iron diameter Ø8 that are linked between with special ties to create the overall net. Ideal for installation in storefronts due to the combination of high security and in-store vision.

A rolling shutter that is largely hand- assembled with great persistence and patience by experienced technical staff. You can choose between three different patterns: Sparse (170x115) , Medium (130x90) and Dense (70x45).

You can choose from a wide range of powder coating colours with excellent resistance to outdoor conditions and excellent colour retention that meets the requirements of all major European architectural standards.

Sparse Profile

Solid Iron tube (Ø8) with 170x115mm holes. Weight: 9,0 kg/m²

Medium Profile

Solid Iron tube (Ø8) with 130x90mm holes. Weight: 11,4 kg/m²

Dense Profile

Solid Iron tube (Ø8) with 70x45mm holes. Weight: 17,5 kg/m²

With a flanged shaft end for more stability and durability, TECNOSERRANDA industrial shafts are made to last forever.

Specially specially designed straps that connect the shutter with the shaft.

SHAFT

The shaft is one of the most important parts in the operation of the shutter. In TECNOSERRANDA we do everything in our hand to manufacture highly functional and long lasting shaft to accompany your rolling shutter. Industrial rolling shutter shafts come in five different sizes:
Ø 133(4mm), Ø 159(4mm), Ø 168(4mm),
Ø 193(4mm), Ø 219(5-6mm)

Actual representation of the aluminum hook inside the guide.

HOOKS

Aluminum Hooks for bigger shutters that need to be reinforced.
The hook is accompanied with a plastic slider that helps it to move into the guide more freely.

TECNOSERRANDA

“Three-sided box that protects the shaft and the motor from external damage.”

GUIDES

Special shaped guides with various cross sections of 1,5mm or 2mm thick steel sheet, with integrated rubbers and brushes to reduce thermal losses help with sound reduction. Guides are painted with the same color as the rolling shutter.
